Description

Basic information about the drug Lenalid 10 mg [Description Lenalid 10 mg](#) [Order, delivery and payment Lenalid 10 mg](#)

LENALID 10 mg is available in our online pharmacy, manufactured in India by the pharmacological company Natco in capsule form. This drug is prescribed strictly by the attending physician.

The drug LENALID 10 mg is supplied to our pharmacy directly from the manufacturer in India. All drugs are certified and have all the necessary documents. Thanks to direct supply, you can guarantee the excellent quality of these generics.

The action of the drug LENALID 10 mg and its use

This drug is prescribed to patients with myeloma, and in some cases even before it is detected. LENALID 10 mg is usually prescribed as an antineoplastic immunomodulator.

LENALID 10 mg tablets are used strictly as directed by a doctor once a day. The use of the drug should be postponed only if its membrane is broken.

As a rule, the course of therapy takes place in 3 weeks at 25 mg per day, with a weekly break.

It is important to remember that only the attending physician has the right to increase or decrease the dosage of this drug. The course of treatment with this drug is quite long, which is why and for a number of other reasons, only the doctor must control all the processes occurring with his ward. In case of any changes in well-being, you should immediately seek the advice of specialists.

Contraindications and side effects of LLENALID 10 mg

This drug is not prescribed to persons under the age of 18, as well as lactating and pregnant women. It is also noted that when using this drug, pregnancy planning should be postponed.

In our on-line pharmacy, there are several ways to order the necessary drugs. The buyer can leave a contact phone number, or fill out a form on the website, or send a message in Viber. In all these listed cases, a specialist contacts the buyer using the specified contact information to clarify the details of the order, as well as for a possible free consultation on the ordered drugs.

Orders from the pharmacy are delivered throughout Russia. In the cities of Moscow, St. Petersburg and Krasnodar, the order will be delivered by courier within a maximum of two days from the moment of placing the order. Orders to other cities are sent by Russian Post or EMS. How quickly the order will be delivered to a specific point on the map, you can check with the operators by phone.

It should be noted that an online pharmacy has a number of advantages over other pharmacies, and most importantly, the products sold in this pharmacy are supplied directly from Indian manufacturers. That is why each generated order contains the necessary certificates and documentation for the preparation, so that the buyer can be sure of the quality of the delivered goods. Also, by calling the specified phone number from the operators at any time, you can clarify the status of the order.

Another important plus of our pharmacy is that we send drugs without any prepayment. Such a system was created so that the buyer, having received our order, could first read the documents for the drugs again, live, as well as to be able to check the expiration date of the drug and the integrity of its packaging and the drug itself. If all goes well, the buyer pays for the order. Also, for buyers of the pharmacy, a discount is available for the entire order. It works with a full one hundred percent advance payment of the order. More details about this discount can be obtained from the operators by phone.
