Where to Buy Rikovir (Tenofovir, 300 mg)

This medication is used during the treatment of people with signs of immunodeficiency. It can be used at different stages of treatment. Rikovir is developed in India by the pharmaceutical company Mylan Pharma. The main active ingredient is Tenofovir, it is used during prolonged therapy, without the threat of addiction. Before buying Rikovir, you should definitely consult with your doctor. Here you will buy only the highest quality medicines, because they are produced on the most advanced equipment.

Prices for Ricovir (Tenofovir 300 mg)

Due to the fact that manufacturers do not buy expensive advertising and do not conduct too deep research, it has long been proven how effective tenofovir, which is the active substance of this drug, is. Accordingly, the price of Ricovir is much cheaper than that of the original drug. And although the drug is a generic drug, this does not in any way affect its quality and pharmacological capabilities. Its only difference from the original is that it is available to every customer.

Reviews

Based on the feedback from those who bought Ricovir in Russia, their condition began to improve after a few days. Also, a big plus is that this drug can be taken for a long period. Of the possible side effects, people report headache and malaise. You have the opportunity to purchase a quality Ricovir drug from us, because it is beneficial and safe for you.
