Where to buy Tenof (Tenofovir 300 mg)?

The drug Tenof (Tenofovir 300 mg) is an Indian antiviral agent, whose action is aimed at treating patients with HIV infection, as well as with chronic hepatitis B. You can buy Tenof (Tenofovir 300 mg) in our Pharmacy at the most optimal price, nothing risking. After all, our drugs are delivered directly from suppliers. Accordingly, today you can purchase medicines from the most famous pharmaceutical companies. Before that, you should consult your doctor for a consultation.

Prices for Tenof (Tenofovir 300 mg)

In our online pharmacy, such low prices are due to the fact that the manufacturer does not need to pay for the promotion of their drugs. In addition, generics are just as effective drugs, but they are copies of the originals. Occasionally, they may contain other auxiliary components, but the active substances are always identical. Tenof (Tenofovir 300 mg) can also be purchased at a price that will definitely please you. Sometimes there are discounts on the site, which makes the purchase even cheaper.

Active substance Tenofovir

Tenofovir is used during the complex therapy of adult patients with HIV and during the treatment of the hepatitis B virus. It is mainly intended for a long course and, which is very important, is not addictive. Patients reported adverse reactions extremely rarely; in some cases, people were monitored for nausea and fatigue.

Description of Tenof

Cardboard box with the original logo of the company, which contains 30 hard tablets. One tablet contains 300 mg of tenofovir.

Indication

The attending physician prescribes this drug for a long period of treatment for patients who are struggling with the hepatitis B virus and HIV infection.
