basic information

Buy Spegra in our online pharmacy  
Spegra is a drug for the treatment of HIV. The effectiveness of which is confirmed by relevant scientific studies published in verified scientific journals [1]. Therefore, you can be sure of its effectiveness and safety! The advantage of an online pharmacy is direct delivery of medicines from India from certified manufacturers. And also delivery without prepayment by courier in Moscow, St. Petersburg and Krasnodar. Or to any city in Russia by courier service EMS, Russian post or any other delivery service.

However, despite the effectiveness of Spegra (Dolutegravir / Tenofovir alafenamide / Emtricitabine) - Spegra (Dolutegravir / Taf / Emtricitabine), it should only be taken after consulting a healthcare professional.

### Scientific research:

### Spegra price in online pharmacy

Despite the clinical trials of the drug, the price of Spegra is more than acceptable. Not to mention the fact that "the online pharmacy provides delivery services without prepayment. But we emphasize once again that the drug should not be taken without first consulting your doctor. As it can be dangerous!"

### Spegra's appointment

Spegra is intended for the treatment of HIV infection, in order to prevent its development to the terminal stage - AIDS. But since people may have individual contraindications to dolutegravir, it is recommended to undergo tests without fail before using Spegra. After that, the attending physician will be able to prescribe the use of the drug, taking into account your individual characteristics. Since, despite the efficacy and safety of Spegra, confirmed in studies, side effects may occur with independent use of the drug. But taking emtricitabine under the supervision of a doctor is almost guaranteed to give the expected result!

### Indications for use of Spegra

The main indication for the use of tenofovir alafenamide is the presence of HIV-1 in the body. Since Spegra contains as many as three retroviral components, which allow a complex effect on the patient's body. Thus, Spegra not only suppresses the activity of the virus, but also increases the activity of the cells of the immune system. At the same time, for the best effect and in order to avoid the development of side effects, it is recommended to first consult a doctor.

### Contraindications to the use of Spegra

- Pregnancy
- Breast-feeding
- Conception planning
- The presence of acute infectious diseases of internal organs
- Poor skin condition
- Childhood
- Individual intolerance to the active ingredients of emtricitabine

### Reviews on Spegra

Spegra users are extremely positive about the drug. And scientific research confirms their opinion. However, doctors do not recommend taking Taf on your own. Moreover, even if a person does everything according to the instructions for the drug. Since it is possible to adequately prescribe the use of Spegra only if the person has previously passed the tests. On the basis of which the attending physician can make a decision on the advisability and admissibility of using dolutegravir.

### Method of using dolutegravir

Spegra is available in tablet form. Therefore, it is very convenient to take them. But you need to do it regularly! Namely, 2 tablets a day before or after meals in the morning and evening.

### Side effects of emtricitabine

- Nausea
- Chronic rapid fatigue
- Stomach ache
- An increase in the concentration of platelets in the blood
- Diarrhea
- Respiratory tract infections

**Shipping and payment**

The drug can be delivered to all cities of Russia by courier service EMS, Russian post or any other delivery service.

The online pharmacy ships Spegra to customers without payment. You will pay for medicines only after you receive them. This calculation system allows you to check the integrity of the packages, the expiration dates and the quality of medicines before payment. But you can make a prepayment and get a discount from the online pharmacy!
