Basic information about the drug TELURA-30 tabDescription TELURA-30 tabOrder, delivery and payment TELURA-30 tab

basic information

The drug TELURA-30 tab is aimed at combating the human immunodeficiency virus, which can be used at different stages of the manifestation of the HIV virus strain. Telura works especially effectively at the first stage of the disease. You can familiarize yourself with the reviews of our customers on the pharmacy website. It is noted that if you take one tablet a day on an empty stomach, the likelihood of side effects is reduced. Doctors do not recommend the use of Telura for people who have high sensitivity to components, during pregnancy and with liver pathologies. The following side effects are possible:

- Fatigue, drowsiness;
- Diarrhea and stool changes;
- Dizziness;
- Nausea and vomiting.

Take TELURA-30 tab as directed. This will significantly reduce the risk of side effects. Treatment times are 8 to 24 weeks. Also, if this drug does not help you, we will refund your money. It should be said that we cooperate with pharmaceutical clinics in India and Egypt: Hetero, Natco Pharma Limited, Zydus Cadila Healthcare, Lucius Pharmaceuticals, Pharmed Healthcare, Marcyl Pharmaceutical Industries, European Egyptian Pharmaceutical Industries.

Description

Lamivudine (300 mg), Tenofovir (300 mg), Efavirenz (600 mg) are generics, that is, it is a drug that contains a substance that replaces an identical patented one. Due to the fact that patent rights are bought, generics are cheaper, and they come out after a long adaptation of the original. The effect of the drug may not be as expected if the excipients are poorly selected.

Dosage form: film-coated tablets.

Active ingredient: Lamivudine / Tenofovir / Efavirenz.

Manufacturer: Mylan.

Our preparations Lamivudine (300 mg), Tenofovir (300 mg), Efavirenz (600 mg) are produced in India and have all the certificates. The online pharmacy delivers medicines directly from the country of origin. But we also remind you that you need to consult with your attending physician, who will draw up a treatment plan. Do not self-medicate under any circumstances, it is dangerous to your health. But also be sure of the quality of the products we supply, since we have concluded contracts with manufacturers and this is a guarantor to buy not a fake. On our website, you can make an appointment with a doctor who, based on your diagnosis and treatment plan, will make an alternative replacement for expensive drugs, and after these manipulations you can be confident in the chosen treatment tactics.

Shipping and payment

To deliver Telura-30tab, contact our manager by the phones indicated on the website or online. We carry out delivery throughout Russia without prepayment, after a complete inspection of the goods, payment is made. For residents of Moscow, St. Petersburg and Krasnodar, delivery by courier EMS is possible. There is a convenient navigation on the website in the Delivery all over Russia section. Delivery times to any city in the country are -7 days from the date of order and registration by the manager. The price for such drugs as Lamivudine (300 mg), Tenofovir (300 mg), Efavirenz (600 mg) is the most favorable, due to direct direct contact with generic manufacturers. We also have promotions where the price of any drugs, including Telura, will be lower. But the most important thing is the quality of the drugs and services of our online pharmacy, which we vouch for. This is evidenced by barcodes and unique holograms.
